

A place where our little global
citizens can grow in a fun and safe
learning environment.

Welcome to Svenska Internationella Förskolan. We are a multicultural, bilingual preschool with Swedish and English as our primary languages. Here we love to discover new things and take in new knowledge. Our purpose is not only to inspire a love of lifelong learning, but also a passion for becoming active global citizens.

We have two preschools – in Kista and in Hässelby – with room for 40 and 20 children respectively. Our qualified and experienced educators motivate and stimulate the children. All our learning environments are built around the children's curiosity, letting them meet different learning experiences and approaches.

With us, learning is not just about the indoor environment. Our lovely gardens, with their open green spaces, work perfectly for outdoor learning. The parks and forests around us are part of everyday life – we are outdoors every day, in all weather. And we make regular outings: to the forest, the library and the city's museums and theatres.

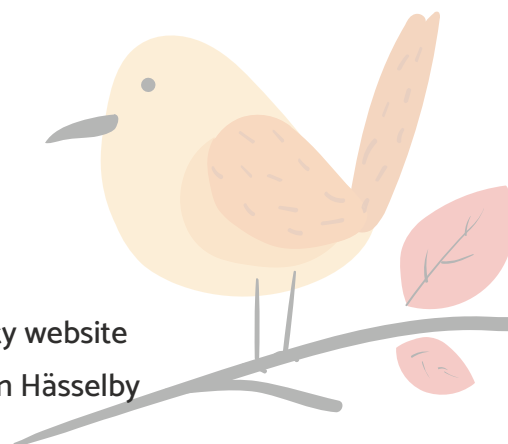

Our food is well thought out and balanced, with a passion for organic and seasonal produce. We are a sugar-free preschool and love to bake and make ice cream with natural sweetness.

We pride ourselves on our close connections and collaboration with our parents.

To apply for a place, you can:

- ✓ Submit your application via Min barnomsorg on the Stockholm city website
- ✓ Book a visit – Köpenhamngatan 4 in Kista or Mäster Karls väg 5 in Hässelby
- ✓ Contact us at info@siforskolan.se or call 070 029 99 85
